BIOGEOMORPHOLOGY

Editorial 1

Research Papers

Biogeomorphology revisited: looking towards the future
L.A. Naylor, H.A. Viles and N.E.A. Carter 3

Biogeomorphological implications of microscale interactions between sediment geotechnics and marine benthos: a review
J.M.H. Murray, A. Meadows and P.S. Meadows 15

A new technique for evaluating short-term rates of coastal bioerosion and bioprotection
L.A. Naylor and H.A. Viles 31

Riparian seed banks along the lower River Dove, UK: their structure and ecological implications
J.M. Goodson, A.M. Gurnell, P.G. Angold and I.P. Morrissey 45

Lichenometric dating of slope movements, Nant Ffrancon, North Wales
V. Winchester and R.K. Chaujar 61

The role of biological weathering in periglacial areas: a study of weathering rinds in south Iceland
S. Etienne 75

The nature and rate of weathering by lichens on lava flows on Lanzarote
R.C. Stretch and H.A. Viles 87

Vol. 47, Nos. 2–4

SPECIAL ISSUE

**GEOMORPHOLOGY IN THE PUBLIC EYE:
POLICY ISSUES, EDUCATION, AND THE PUBLIC**

Introduction 95

Research Papers

Geomorphology, natural hazards, vulnerability and prevention of natural disasters in developing countries
I. Alcántara-Ayala 107

Geomorphic studies of landslides in the Tully Valley, New York: implications for public policy and planning
D.L. Pair and W.M. Kappel 125

Municipal initiatives for managing dunes in coastal residential areas: a case study of Avalon, New Jersey, USA
K.F. Nordstrom, N.L. Jackson, M.S. Bruno and H.A. de Butts 137

An ecosystem approach for determining environmental water allocations in Australian dryland river systems: the role of geomorphology
M.C. Thoms and F. Sheldon 153

Rivers, dams, and willow flycatchers: a summary of their science and policy connections
W.L. Graf, J. Stromberg and B. Valentine 169
Soil erosion assessment tools from point to regional scales—the role of geomorphologists in land management research and implementation
C.S. Renschler and J. Harbor 189
Geomorphology's role in the study of weathering of cultural stone
G.A. Pope, T.C. Meierding and T.R. Paradise 211
Landscape evolution of the Five Islands of south Louisiana: scientific policy and salt dome utilization and management
W.J. Autin 227
Aesthetics and relevance in geomorphological outreach
A.S. Goudie 245
The value of teaching about geomorphology in non-traditional settings
R.L. Davis 251
Creating curricular change: needs in grades 8–12 earth science
S.K. Marks, J.D. Vitek, J.R. Giardino and K.C. McQueen 261
Permafrost science and secondary education: direct involvement of teachers and students in field research
A.E. Klene, F.E. Nelson, J. Nevins, D. Rogers and N.I. Shiklomanov 275
The role of roadcuts, quarries, and other artificial exposures in geomorphology education
J.F. Petersen 289
Teaching about relict, no-analog landscapes
A.L. Bloom 303
The educational value of the history of geomorphology
D. Sack 313
Shifting paradigms in geomorphology: the fate of research ideas in an educational context
A.R. Orme 325
Geomorphology and the World Wide Web
J.F. Shroder Jr., M.P. Bishop, J. Olsenholler and J.P. Craiger 343
